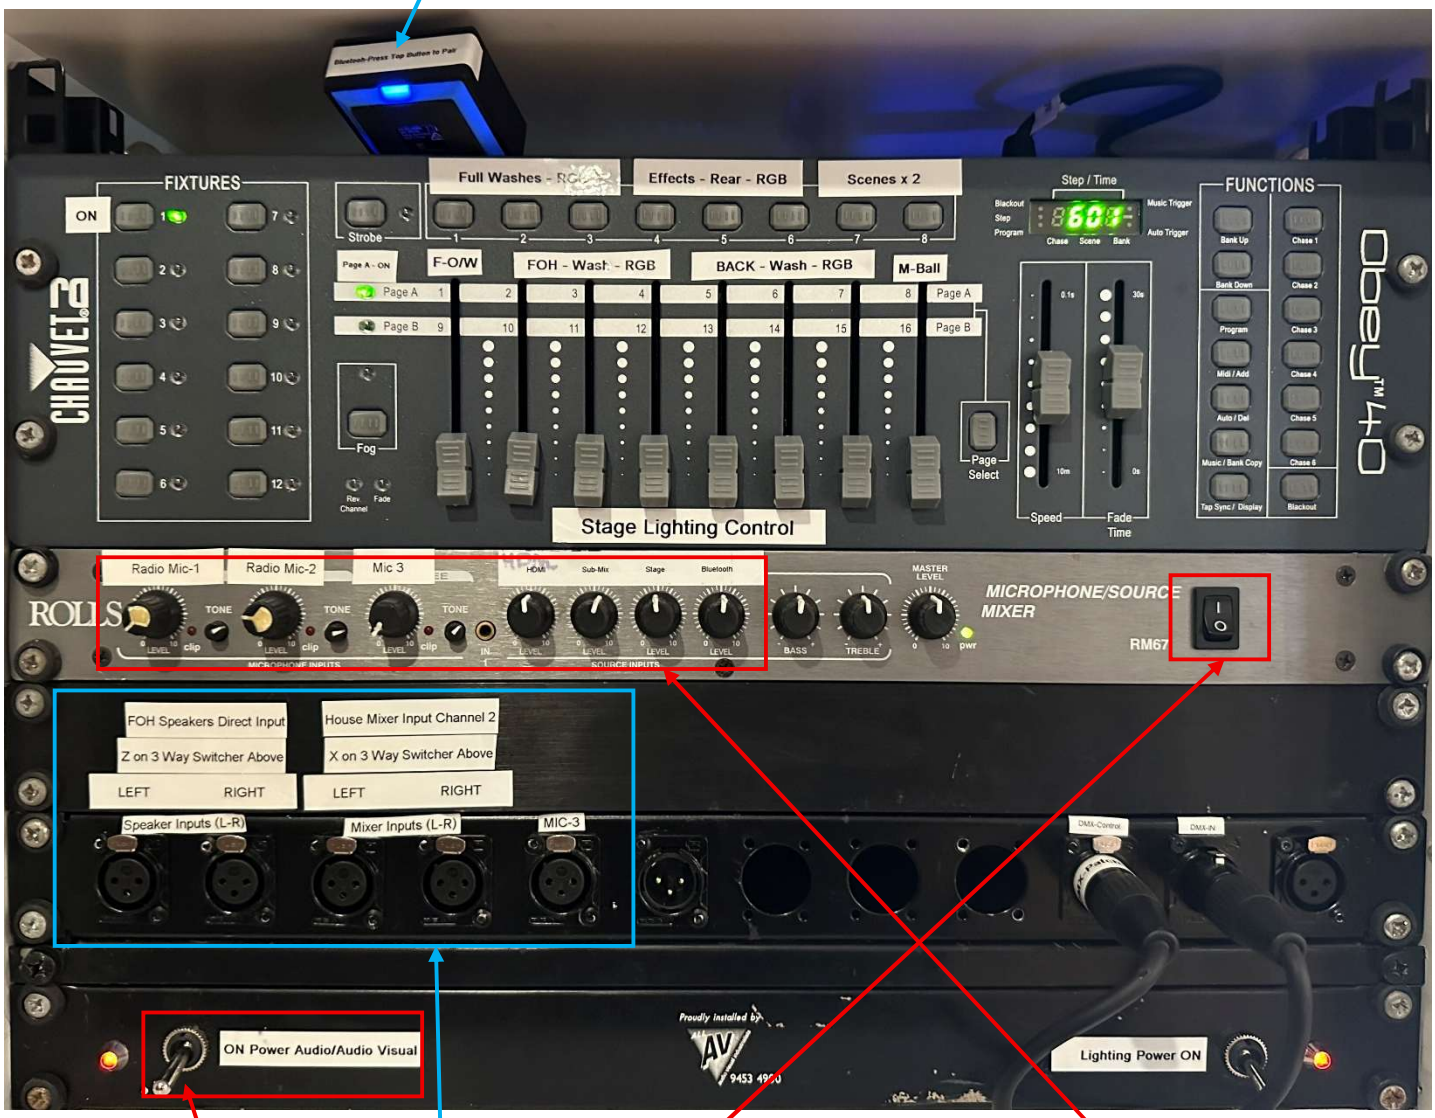
Quick Guide – Sound System

Follow the three (3) easy steps below to use the sound system

BLUETOOTH

Users may connect their phones or devices by pairing with this device. PRESS and HOLD button on the top of this unit and it will discoverable via the Bluetooth settings in your phone or device.



STEP 1 - Turn ON the system using this switch.

STEP 2 - Turn ON the mixer unit.

STEP 3 – Adjust individual levels using these volume controls.

For **sub-mixes** choose Speaker **Inputs (L-R)** if you want to bypass the Hall mixer and send a signal directly to the speaker boxers.

Alternatively, you can choose House **Mixer Inputs (L-R)** to send a **sub-mix** via the house mixer.
